State Update

Jane asked for evidence based programs for an upcoming report. Named were the following:

Positive actions, LEAD, The Alternative Suspension Advancement Program, TAG/TAP, Tar Wars and Celebrate recovery. (Note: If anyone can think of any others, please contact Jane as she has a report due by the 13th.)

The K2 Spice (incense) purchased legally is used at Purdue currently. Curtis advised that Salvia is also on the up rise and the effects during use are very extreme. Individuals experience severe hallucinations during use.

The update has been turned in and we await approval.

The Local Coordinating Council Officers, Coordinators', ICJI, Community Consultants and community members will hold the "**Basic's of LCC**" seminar on Friday June 11, 2010 from 10:00 a.m. to 3:00 p.m. at the Indiana Government Center South Auditorium. Sessions include: Indiana codes as they pertain to your council, interpretations from ICJI legal department, review of funding procedures and policies.

Also, a short note on Face book; be careful what things you put on Face book. Very dangerous!!

Dissolvable tobacco is on the rise. (However, not in our community - More so in Indy and Plainfield.) In 06'- 08', 1,800 people consumed smokeless tobacco and taken to the hospital for poisoning. In that same time frame, 3,600 individuals were taken to the hospital for cigarette poisoning.

It was also noted that trainings were held in Vermillion/Parke clinics' for Dr and Nurses concerning pregnant girls who are still smoking. Note: 7 out of 11 patients smoke while pregnant. This often develops development and physiological problems later on.

Coordinator Update:

Elaine passed the ATOD flyer for review. She would also like to set a date for the Alcohol prevention public program. (Maybe at SVHS during the health fair, LIFT or during the Hill Climb on the Courthouse lawn. (To save \$\$)

She also sent email forwards: JT Direct Weekly News, Free webinar, Parenting with the brain in mind, SAMSHA Implementing evidence – based prevention practices school, and May's Traffic safety bulletin and RAD newsletters (which Elaine put in the newspapers for Prom and graduation times) and monthly meeting press releases.

The coordinators excel spreadsheet for percentages of funding were presented. She also shared Newport's Community Center evaluation form. And, finally she is working with Mike Phelps to get the LCC website on the county website.

New Business:

The Fatal Vision goggles were used during the SV High schools Alcohol and Driving awareness. Maybe we could use these during the seminar? (They possibly came from the Excise Police.) The State SADD chapter will use the goggles with golf carts and cones if asked.

Mr. Manlove spoke recently at NV prom. He lost his son at 16 due to a drug issue (huffing), they thought they could take care of it themselves and found out otherwise. Students in attendance spoke of a **VERY** powerful presentation.

Scott and Bob discussed the need for a prescription meds drop box at least twice a year.

Evaluations: The board decided for the Bylaws to match the Evaluations forms.

MOTION: Lori Porter

SECOND: Vic Porter

Motion passed.

SV Elementary Counselor: Sandee asked if there were someone to take her place they may or may not conduct matters as she does. She has some money encumbered for red ribbon week next year and would like to know if she should give it back or go a different direction. Scott will call Donna Guinn to see if we can move from Sandee's name to the LCC name but leave at the elementary school.

The meeting was closed with the next meeting set for June 3, 2010 noon at the courthouse.

Respectfully Submitted, Cheryl Vaughan from Coordinator's notes.
