To Whom It May Concern:

I am a teacher at North Vermillion High School, and I am writing to recognize and offer praise for the efforts of Vermillion County Commissioner Tim Yocum. He is an outstanding and extraordinary leader in Vermillion County. His motivation for, and devotion to, the local community is remarkable. A review of his record quickly reveals he is among the hardest working, most dedicated, and productive of any public servant.

Tim and I began working together ensuring the voter registration of virtually all graduates of North Vermillion High School. Tim has since developed the Vermillion County Commissioners Mentoring Program that has proven invaluable for students experiencing various aspects of local governance. North Vermillion students have participated in monthly Commissioners' meetings and have had experience with many other local government agencies as a result of his efforts. They have gained enhanced appreciation of the vital functions which our county government performs.

Tim is very devoted to promoting and teaching the importance and indispensable functions of local government. The students truly benefit from greater understanding and experience which they receive from the Vermillion County Commissioners' Mentoring Program.

Tim has instilled the idea that our students become the leaders of tomorrow. I am grateful for the valuable opportunities Tim has provided for North Vermillion students.

Thank you,

Trevor Smith  
Social Studies Teacher
